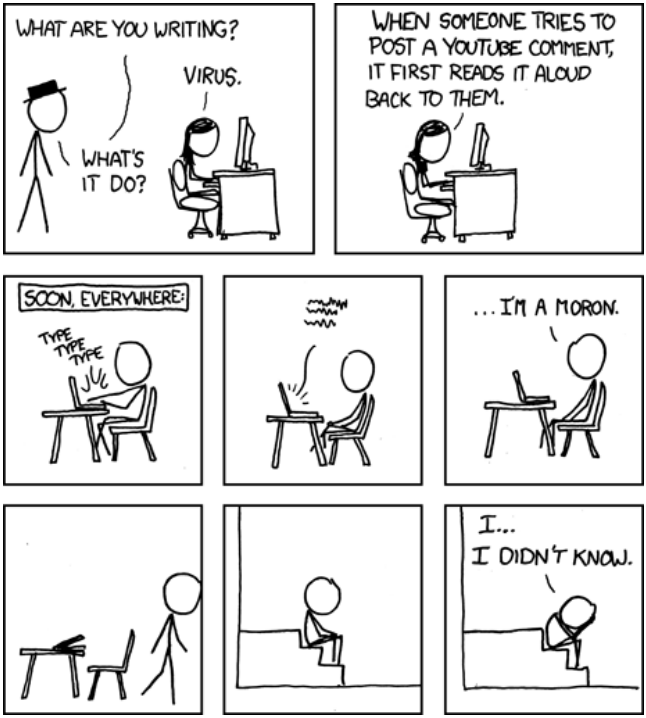
Every year again!



(CC) 2.5 by-nc-nd, https://xkcd.com/481/

Dear international students

Once a year, students at Chemnitz University elect their student representatives. This booklet will give you all the necessary details about the candidates, election procedure and the student representative candidates.

You probably have already met us during the orientation week, at some other

event organised by us or simply came by our office to ask questions regarding your studies. However, our main task as the student representatives of computer science students is to communicate with professors and other university staff on your behalf.

The student representatives consists of up to 15 members which are elected every year. This year, there are 15 candidates nominated for the next term, which will start in April 2024 and holds for the following 12 months. The election for that legislative term will take place **11th - 13th December**. You should have received a polling notice (**"Wahlbenachrichtigung"**) via e-mail.

The election stations are located in the following rooms:

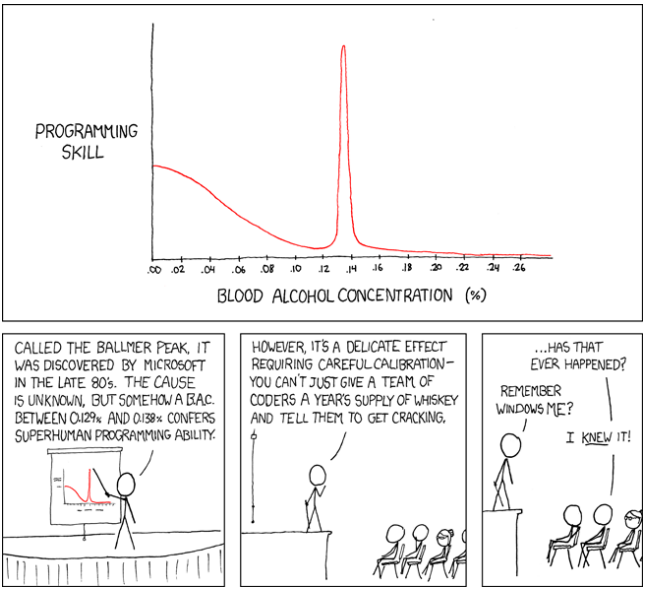
- 11th Dec (Mo) – 9:00 am - 6:00 pm
  room 1/367 (A10.367), Straße der Nationen 62
- 12th Dec (Tu) – 9:00 am - 6:00 pm
  room 2/N001 (C10.001), Reichenhainer Str. 70
- 13th Dec (We) – 9:00 am - 6:00 pm
  room 2/N001 (C10.001), Reichenhainer Str. 70

Please bring your **student ID card** for identification and verification. You have three votes which can be accumulated on one candidate or distributed among multiple candidates.

If you have any questions about the candidates, don't hesitate to ask them. If you have any questions concerning the computer science student representatives, ask your current representatives or send them an e-mail: fsrif@tu-chemnitz.de.
If you have any questions concerning the electoral procedure, ask the electoral committee by sending an e-mail to: stud-wahlen@tu-chemnitz.de.

What is the purpose of the student representatives?

The main task of the student representatives (FSR) is to support the computer science students' interests at the faculty and at the whole university. If you have ideas on how to improve your course of study or you have had problems with your examinations you can ask your student representatives for help. Additionally, they organise cultural events, parties and are responsible for political education and assisting students with their studies. The office of the computer science student representatives ("Fachschaftsrat Informatik", FSR:IF) can be found at room 1/344 (A12.344).



(CC) 2.5 by-nc, https://xkcd.com/323/

What we did so far

As you may have noticed, we were not inactive last year either and organised and hosted a wide variety of events. At the same time, we did our best to represent and assert your interests fairly. For example, in addition to our committee activities, we have tried to establish and maintain positive contact with various committees and people in the faculty.

Student events during the term of office 2023/24 so far:

- Faculty breakfast summer semester
- ICE 2023
- GameJam October 2023
- O-Week 2023
- Install Party
- Games evening ("Chill Ma evening")
- Bowling evening

What we want to do next

- Christmas party 2023
- Ice skating in January

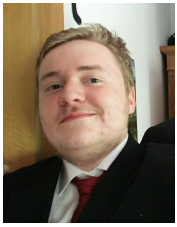
The candidates

Name: Pauline Fischer
E-Mail: pauline-hannah-elisabeth.fischer@s2022.tu-chemnitz.de
Course: Master Computer Science
Term: 3rd term

Hello, dear students!
In the coming term of office, I plan to support the new FSR members in word and deed and make it easier for them to familiarise themselves with the FSR's work. As in the previous term of office, I would also like to focus on networking and event planning.
The faculty breakfast and larger events such as the FSR:IF Christmas party are particularly important to me.
I'm looking forward to being there for you for another term of office and having a good and fun time with my FSR colleagues, the university staff and you!
Best regards
Paula

Name: Wieland Breitfeld
E-Mail: wieland.breitfeld@s2016.tu-chemnitz.de
Course: Bachelor Computer Science and Communication Studies
Term: 9th term

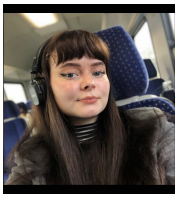


Hey everyone, I'm Wieland, and I've been around for... um... [counting on the fingers of his hand]... a few years in the FSR. Right now, unfortunately, there aren't that many glorious things I'm organizing in the FSR to tell you about. But behind the scenes, the work goes on as usual. We read through every new senate resolution so that we can help you with any questions you may have about it. And of course, behind the scenes we continue to fight for your rights! I am involved in the student representatives so that you have a strong partner in case of problems with the university or lecturers, who can advise, mediate and if necessary also step up.

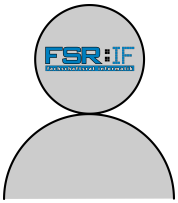
Name: Maren Gröne
E-Mail: maren.groene@s2016.tu-chemnitz.de
Course: Master Neurorobotics
Term: 7th term

Hello, on to the third year in office! After many events organized with shared or primary responsibility, routine is slowly setting in for me. Therefore, this year, I will primarily act in a supportive role - except perhaps for the next orientation week (I could as well use the calm nerves from said routine).
We will have many new members (yay!), so I will also ensure a system tailored for this, enabling us to work together effectively and implement successful events for you as quickly as possible. Whoop, project management and all that.
Otherwise, I am always ready to delve into new topics for you, to answer your questions about examination rights, studying, student financial aid (Bafög), and so on and so forth!

Name: Michelle Bernat
E-Mail: michelle.bernat@s2020.tu-chemnitz.de
Course: Bachelor Applied Computer Science
Term: 7th term



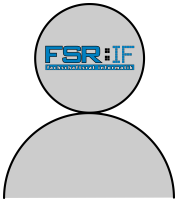
Heyho!
Let's keep it short. Just like last year, I would be happy to be a part of cool events for you again this term and to support those who have questions and problems regarding their studies. With all the cool new people we have at our side from next semester, you can definitely look forward to lots of new ideas and events!



Name: Leonie Rößler
E-Mail: leonie.roessler@s2023.tu-chemnitz.de
Course: Bachelor Automotive Informatics
Term: 1st term

Hi there, my name is Leonie and since this term I can proudly say that I'm a new student here at the TU Chemnitz.
Accordingly, I don't have that much experience regarding the FSR but I'm very motivated to change that. Ever since the "O-Woche" I've developed the strong desire to help whereever needed.
And I've already gotten the chance to do so with some smaller tasks.
Now, I would love to take on even more responsibility as a future member of the FSR to set up larger events for you other students. That's why I would greatly appreciate it if I had your support.
Oki thanks, bye :)

Name: Max Günther
E-Mail: max.guenther@s2023.tu-chemnitz.de
Course: Bachelor Computer Science
Term: 1st term



The name Max has been with me for almost 20 years now and is now finally available to you as a choice.

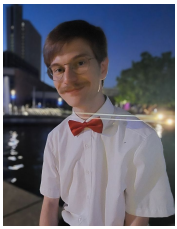
In this highly informative text on my person, you will be welcomed by my cosmopolitan, friendly and inspiring personality in addition to the existing knowledge on various economic aspects of the handling of monetary funds. It is always good to have a proverbial ear for others and laughing together burns more calories than laughing alone.

I'm the Max and I hope I'm there thanks to you!

Name: Markus Henkelmann
E-Mail: markus.henkelmann@s2017.tu-chemnitz.de
Course: Bachelor Computer Science
Term: 11th term

Four terms are almost over for me and the coming term will probably be my fifth term - unless I've miscounted and it's only been three terms. :D
In this fifth term of office, I would like to continue to be involved in the administration of the finances and the general internal organisation. My main focus here will be on familiarising the new members and at the same time adapting some processes so that we can work well as a team. Of course, I will also be involved in the organisation of events at one point or another, with special attention being paid to orientation week, as in the last two years.
So I'm looking forward to being part of the FSR for another year. :)

Name: Jonas Sterzel
E-Mail: jonas.sterzel@s2022.tu-chemnitz.de
Course: Bachelor Applied Computer Science
Term: 3rd term



Hi there, I'm Jonas Sterzel – a part-time gamer, student, and somehow a developer, which collectively makes me a laid-back individual. Why do I aspire to join the FSR? To assist fellow students, especially newcomers, and enhance the overall enjoyment of student life.
While I may not be a fervent party-goer, there's always something happening around me. Whether it's gaming, memes, fun facts, or engaging activities, boredom isn't part of the equation when you're with me!

What do I bring to the table? A good sense of humor, a dash of Gimp skills, a sprinkle of economics knowledge, a heap of passion, and a love for games.

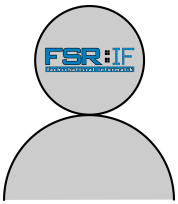
Name: Daniel Fink
E-Mail: daniel.fink@s2023.tu-chemnitz.de
Course: Bachelor Applied Computer Science
Term: 1st term

Hello everyone! Some of you may already know me. In a nutshell: I'm Daniel, a first-year student in the Bachelor's program for Applied Computer Science, and I find the idea of getting involved with the Student Council (FSR) quite interesting.

Why? I really enjoyed listening to and helping with the planning of the game night. That was also the day I put my name on the list because it was genuinely fun to work with the people there, even if it was just a small part. That's why I'm introducing myself here, as I can imagine doing this on a slightly larger scale :)
Perhaps I could also handle the role of assisting with your problems or questions, but that can only be determined once I'm actually involved. In any case, I can also imagine doing that :D
That's pretty much it in a nutshell :)
Cheers, Daniel

Name: Lukas Fischer
E-Mail: lukas.fischer@s2023.tu-chemnitz.de
Course: Bachelor Applied Computer Science
Term: 1st term

Hi, I'm Lukas and I enrolled at the TU this year. During orientation week, I made contact with the Student Council ('Fachschaftsrat') and found connection among people.
My motivation to join the Student Council arises from the fact that I find the environment appealing and support the values it represents. In an initially quite confusing university system, the Student Council is a blessing for every student, and it's correspondingly important to advocate for something like this.
That's all about me, and I'm looking forward to the upcoming term. Oh, and always remember: Save the whales, find Nemo, and Free the Malloc()



Name: Mathis Jeromin
E-Mail: mathis.jeromin@s2019.tu-chemnitz.de
Course: Master Computer Science
Term: 1st term

Hello everyone,
I am Mathis and somehow I let myself be convinced to stand for election. Maybe I just thought 'What's the worst that could happen.'.
I already took my Bachelors Program here at the TU Chemnitz and have just begun the consecutive Masters Program. In the former I ended up in organisational situations that were more chaos then anything else for various reasons, which I would have liked to avoid. I therefore hope to be able to help you avoid such situations through the knowledge I gained through the pain and suffering.
However, not everything was chaotic. The event organised by the FSR:IF were always fun and made you want to attend the next one. Therefore I would like to take part in the organisation behind such events in the Future to give you the same feelings about those I always had.

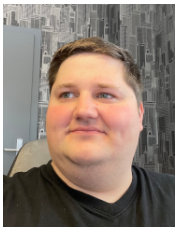
Name: Elias Brucker
E-Mail: elias.brucker@s2023.tu-chemnitz.de
Course: Bachelor Computer Science
Term: 1st term

Hey, my name is Elias and I'd like to join the FSR:IF for the first time this year. I would like to make the students life more enjoyable by planning numerous events, such as games-nights, Christmas parties or the orientation-week, and would like to be actively involved in the organization. I don't have much experience yet, but I would still like to get active in the FSR and of course help out wherever I can.

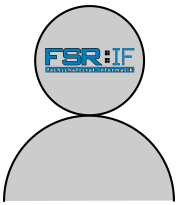
Name: Hendrik Stepina
E-Mail: hendrik.stepina@s2013.tu-chemnitz.de
Course: Master Computer Science
Term: 4th term

Telemark!

Name: Randy Nürnberger
E-Mail: randy.nuernberger@s2010.tu-chemnitz.de
Course: Bachelor Computer Science
Term: 14th term



It is important to me that the courses of study are of a high professional and didactic quality, that there is as much personal freedom as possible and that everyone enjoys a friendly and sociable atmosphere. I would like to work towards creating a knowledge portal across all professorships that collects easily accessible lecture content with additional explanations, questions and answers and calculation examples, especially for the basic lectures. I am in favor of reducing the amount of prerequisites that have to be completed before being allowed to take the exams, although I would first ask for a general opinion before abolishing them, and I would like to look for ways to strengthen the connections between fellow students as well as the university.



Name: Norbert Ploner
E-Mail: plno@hrz.tu-chemnitz.de
Course: Bachelor Computer Science
Term: 12th term

I want to get into the student council to introduce a transcript archive on the website.

Committees

Student representatives (FSR)

The student representatives are the student representation on faculty level. They are responsible for cultural events, for the promotion of political education and of course above all to help with your studies. Furthermore they represent the students' interests towards the faculty and the university and are also point of contact for student problems. They advise students who are not familiar with their study regulations, intervene when injustice occurs somewhere and point out possibilities for improvement in the course of studies.

Student Council (StuRa)

The FSR:IF elects 4 students to the student council ("StuRa"). This is the representation the student body of the entire university. They are responsible for various cultural activities such as readings and concerts.
Furthermore student projects, such as the game night, and university sports get financially supported. The student clubs PEB, FPM and the film club "mittendrin" – as well as the Chemnitz student network – are under their financial sovereignty. With the VMS and the railroad, they pursue regular negotiations for the semester ticket. Also they made it possible to get the upgrade to the Deutschlandticket. If it is necessary, they speak with the university management or start – often in cooperation with the other Saxon student councils – higher education policy actions.
We are searching new engaged people for the StuRa! Please contact us if interested!

Faculty Council

The Faculty Council is the highest body of the faculty. It advises and decides about vocations, courses of study, orders and all other things that faculty. Up to two members of it are students.

Study commissions

Most study commissions – there is a study commission for each study program – are currently made up of three students and three teachers occupied. In recent years they have worked on the study and examination regulations for the new Bachelor and Master programs. Otherwise she is responsible for the continuous evaluation of the courses and for the annual teaching report. It is also intended to make proposals for reforming the Making study regulations when problems are identified somewhere.
We are searching new engaged people for the study commissions! Please contact us if interested!

Examination board

The examination board is responsible for the recognition of academic achievements and many other formalities concerning examinations. It supervises the compliance with the examination regulations. One student representative is part of this board.

Doctoral committee

The doctoral committee is responsible for the doctoral theses at the faculty. Here is one student member with advisory vote.

Acting committee members of the Faculty of Computer Science

FSR

- Wieland Breitfeld (since 04/2018)
- Hendrik Stepina (since 04/2019)
- Markus Henkelmann (since 04/2020)
- Maren Gröne (since 04/2022)
- Pauline Fischer (since 04/2023)
- Michelle Bernat (since 04/2023)

StuRa

- *currently no member*

Faculty Council

- *currently no member*

Study Commissions

- Toni Beier (since 04/2018)
- Wieland Breitfeld (since 04/2019)
- Diana Häntsch (since 04/2020)
- Leandra Weber (since 04/2021)
- Maren Gröne (since 04/2021)
- Max Linke (since 04/2022)
- Erik Leo Haß (since 04/2022)
- Paul Norberger (since 04/2023)
- Estelle Wünsche (since 04/2023)
- José Francisco González Álvarez (since 04/2023)
- Arun Jose (since 04/2023)
- Ivonne Cuervo (since 04/2023)
- Vismay Gunda (since 04/2023)
- Jonas Henschel (since 04/2023)
- Nils Trampel (since 04/2023)
- Gantogoo Qyunbat (since 04/2023)
- Susan Strebe (since 04/2023)
- Norbert Ploner (since 04/2023)

Examination Board

- Jonas Henschel (since 04/2023)

Doctoral Committee

- Maren Gröne (since 04/2022)

Awarding Commission for the 'Deutschlandstipendium'

- *currently no member*

Equal Opportunities Officer of the faculty

- *currently no student member*

Election Committee of the TU Chemnitz

- *currently no member*
