## Every year again!

(CC) 2.5 by-nc-nd, <https://xkcd.com/481/>

## Dear international students

Once a year, students at Chemnitz University elect their student representatives. This booklet will give you all the necessary details about the candidates, election procedure and the student representative candidates.

You probably have already met us during the orientation week, at some other event organised by us or simply came by our office to ask questions regarding your studies. However, our main task as the student representatives of computer science students is to communicate with professors and other university staff on your behalf.

The student representatives consists of up to 15 members which are elected every year. This year, there are 17 candidates nominated for the next term, which will start in April 2026 and holds for the following 12 months. The election for that legislative term will take place **8th - 10th December**. You should have received a polling notice ("Wahlbenachrichtigung") via e-mail. **The election stations are located in the following rooms:**

- 8th Dec (Mo) – 9:00 am - 6:00 pm  
room A10.367 (1/367), Straße der Nationen 62
- 9th Dec (Tu) – 9:00 am - 6:00 pm  
room C10.001 (2/N001), Reichenhainer Str. 90
- 10th Dec (We) – 9:00 am - 6:00 pm  
room C10.001 (2/N001), Reichenhainer Str. 90

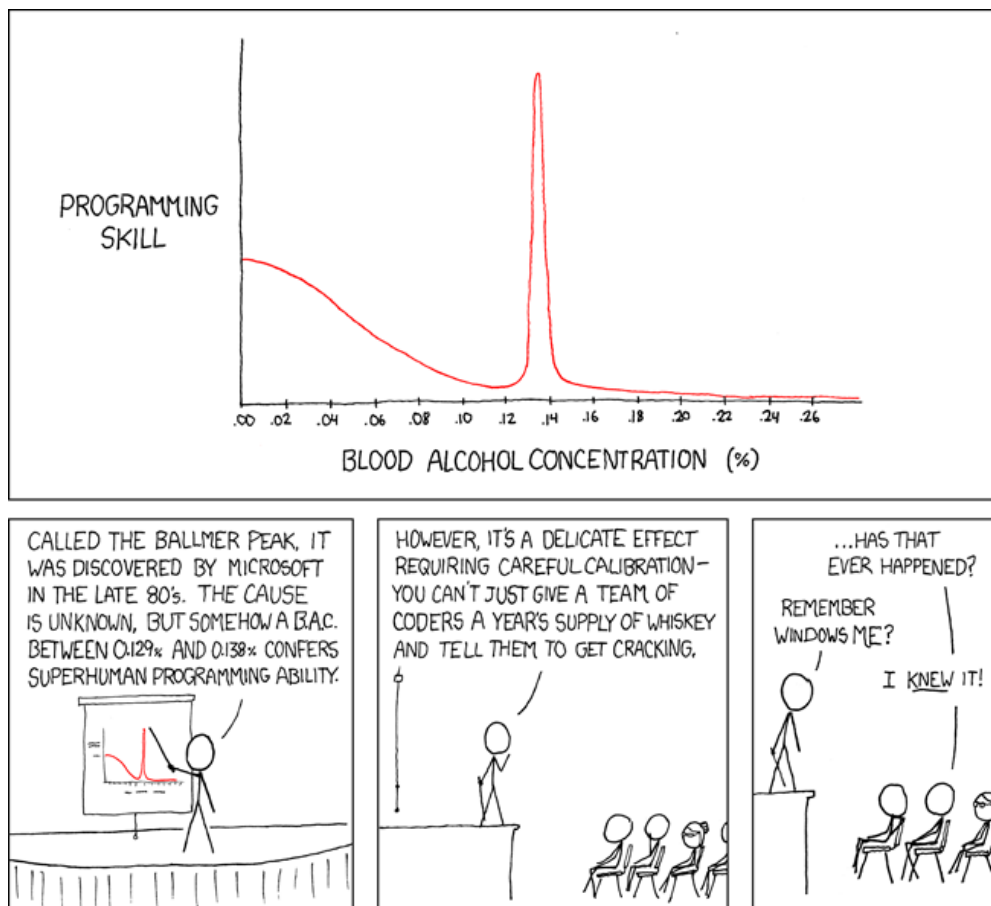

Please bring your **student ID card** for identification and verification. You have three votes which can be accumulated on one candidate or distributed among multiple candidates.

If you have any questions about the candidates, don't hesitate to ask them. If you have any questions concerning the computer science student representatives, ask your current representatives or send them an e-mail: [fsrif@tu-chemnitz.de](mailto:fsrif@tu-chemnitz.de). Also, if you have any questions concerning the electoral procedure, ask the electoral committee by sending an e-mail to: [stud-wahlen@tu-chemnitz.de](mailto:stud-wahlen@tu-chemnitz.de).

### What is the purpose of the student representatives?

The main task of the student representatives (FSR) is to support the computer science students' interests at the faculty and at the whole university. If you have ideas on how to improve your course of study or you have had problems with your examinations you can ask your student representatives for help.

Additionally, they organise cultural events, parties and are responsible for political education and assisting students with their studies. The office of the computer science student representatives ("Fachschaftsrat Informatik", FSR:IF) can be found at room A12.344 (1/344).

(CC) 2.5 by-nc, <https://xkcd.com/323/>

## What we did so far

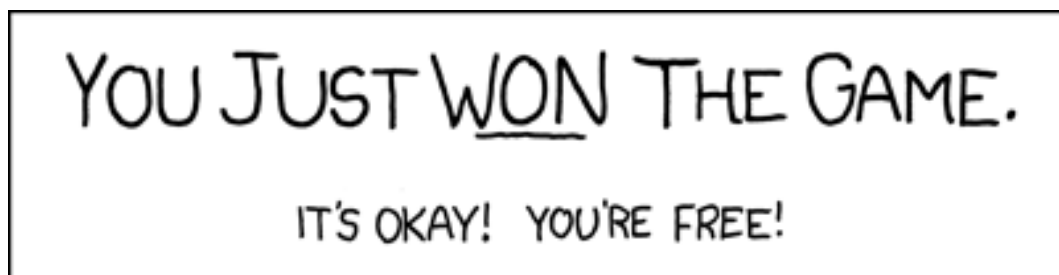

As you may have noticed, we were not inactive last year either and organised and hosted a wide variety of events. At the same time, we did our best to represent and assert your interests fairly. For example, in addition to our committee activities, we have tried to establish and maintain positive contact with various committees and people in the faculty.

Student events during the term of office 2025/26 so far:

- Faculty breakfast summer semester
- IEEEvent ( "Informatik-Eis-Ess-Event" / "Computer Science ice eating event" ) 2025
- Orientation week 2025
- Install-Party
- Faculty breakfast winter semester

## What we want to do next

- Game evening
- Christmas party 2024
- Bowling evening
- Ice skating

(CC) 2.5 by-nc, <https://xkcd.com/391/>

## The candidates

Below, the candidates briefly introduce themselves so that you know who is standing for election. However, the order does not correspond to the order on the ballot paper. This is purely for design reasons and does not represent any prioritization.

**Name:** Markus Friedrich  
**E-Mail:** markus.friedrich@s2024.tu-chemnitz.de  
**Matrix (TUCmessages):** @markfr:tu-chemnitz.de  
**Course:** Master Computer Science  
**Term:** 3rd term

My name is Markus, and I'd be happy to earn your vote for the new Student Council (FSR)! I've been studying at TU for a little over a year now, and during this time I've seen how much positive impact the FSR has on our student community. During the last orientation week, I was already involved as a mentor — an experience that motivated me to contribute even more in the long run.

I want to make sure your concerns are heard and, together with the team, continue building events, support structures, and a strong community. And besides — the FSR could definitely use a part-time student to help balance the quota! :D

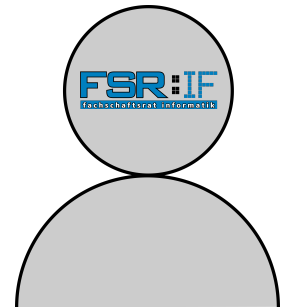

**Name:** Daniel Wirth  
**E-Mail:** daniel.wirth@s2024.tu-chemnitz.de  
**Matrix (TUCmessages):** @dwir:tu-chemnitz.de  
**Course:** Bachelor Computer Science  
**Term:** 3rd term

Hello everyone, I am Daniel – currently studying computer science and running for the Computer Science Student Council. I want to make the degree program a bit more pleasant for everyone, as well as connect you and support you if any problems arise. Through my previous experiences in my studies and in projects, I have learned how important a well-organized student council, clear communication, and strong cohesion within the student body are. This is exactly what I want to actively contribute to.

My goal is also to work toward making learning more interactive – the online exercise program in mathematics is a good example of this.

In addition, I would like to help organize cool events and support the integration of non-native-speaking students.

I would really appreciate your vote, as it makes all of this possible.

**Name:** Tom Engelhardt  
**E-Mail:** tom.engelhardt@s2024.tu-chemnitz.de  
**Matrix (TUCmessages):** @toeng:tu-chemnitz.de  
**Course:** Master Neurorobotics  
**Term:** 3rd term

Hello everyone!

I'm Tom, already one year ago I moved to Chemnitz and instantly got to be a part of the FSR:IF.

It gave me the chance to get to know the university and its students in a way that would not have been possible otherwise.

This year I'd like to be a member of the FSR for you. This means I would be able to continue directly influencing the day to day life at university by implementing my ideas and representing you.

Since last year I enjoyed being a point of contact for any questions or concerns you had. I'd like to continue representing you in matters related to the university and faculty.

**Name:** Tom Morgenstern  
**E-Mail:** tommo@hrz.tu-chemnitz.de  
**Matrix (TUCmessages):** @tommo:tu-chemnitz.de  
**Course:** Master Applied Computer Science  
**Term:** 1st term

Hi everyone!

I'm (the other) Tom, currently in my 1st semester of the Master's in Applied Computer Science – and I really appreciate that you're taking the time to read this :)

Before talking about myself, I want to start with a big thank-you to the current FSR members for organizing such a great Orientation Week – it really made starting here a fantastic experience! Another huge thank-you for all the work happening behind the scenes (like this booklet or the faculty politics) and for all the events that have already taken place or are still to come. I'm already excited about what's ahead :)

And because I enjoyed all of this so much, I'd love to help out as well: supporting the next Orientation Week, adding some vegetarian and vegan treats to the faculty breakfast, getting involved where student representation matters, and helping make our time here warm, pleasant, and well-supported overall.

Feel free to talk to me anytime – I'm really looking forward to the time here and I'm always open to your questions, concerns, or ideas! 🙌

**Name:** Markus Henkelmann  
**E-Mail:** markus.henkelmann@s2017.tu-chemnitz.de  
**Matrix (TUCmessages):** @mhenke:tu-chemnitz.de  
**Course:** Master Computer Science  
**Term:** 3rd term

Hey everyone!

This is now the seventh time my name has appeared in one of these election booklets. Of course, you might think I keep running out of convenience or for the benefits. But far from it! My goals are quite varied, so I'd like to briefly touch on each area.

First and foremost, I want to provide stability to the student representatives council. Over the past terms I've gone through quite a lot and gathered plenty of experience – especially in finances, administration, internal organization, and event planning. With that, I want to help ensure that the FSR:IF never loses sight of your interests and handles *your* money responsibly. But all of this only works if everyone pulls together while also being considerate of one another. I want to pass on all these experiences to the new members so that the positive developments of recent years aren't lost and maybe even improved in some places. :)

I also want to make sure that we continue to have a wide range of very different events, so that in the end there's at least something for each of you and everyone gets a chance to connect with one another.

Last but not least, I want to foster an exchange at eye level with our lecturers and the faculty leadership. I want to work toward a relationship built primarily on mutual respect – without, of course, sacrificing the interests of the students. Only together can we tackle the challenges ahead.

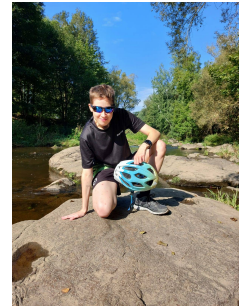

For all these reasons, I'd be very happy to serve another term.

Thanks for your attention, and I'm looking forward to seeing you at the next FSR:IF events. :)

**Name:** Joel Bischoff  
**E-Mail:** lydia.bischoff@s2023.tu-chemnitz.de  
**Matrix (TUCmessages):** @lybi:tu-chemnitz.de  
**Course:** Bachelor Applied Computer Science  
**Term:** 5th term

Hey everyone! I'm Joel, even though I'm still listed with my old name as a voting option (see the email). But that doesn't change anything about my qualities :D  
I've been involved in the community for 2 years now, and I'm finally putting myself up for election as well. Because of that, I'm already familiar with the work of the student council, and I'm excited to get more involved in events and to organize things myself.  
I'm always open to hearing your concerns and I try my best to help. And if I ever find myself clueless, I keep thinking things through until I find a solution. All in all, with me you've got a reliable point of contact when problems come up.  
I'm looking forward to the opportunity to work in the student council thanks to you :)

**Name:** Max Günther  
**E-Mail:** max.guenther@s2023.tu-chemnitz.de  
**Matrix (TUCmessages):** @gumax:tu-chemnitz.de  
**Course:** Bachelor Computer Science, minor: physics  
**Term:** 5th term

println!{ "Hello, I'm Max, 21, and I welcome you to my little corner here in the election booklet!" }

"Two years of experience. One goal: Debug and upgrade our student council!"

For two years I've been active in the student council of the Department of Computer Science here at TU Chemnitz – and I want to continue! During this time, I've fixed various bugs in everyday student life, provided students with a stable interface to the administration, and successfully pushed projects to the repository, while always having an open ear for private functions like `personal.concerns()` and `worries()`.

With your support, I want to actively co-program the next term as well, bring in new ideas and features, and ensure that our student council doesn't end up in spaghetti code. Your vote gives me the opportunity to continue taking responsibility and make our computer science community at TU Chemnitz even stronger than it already is.

Thank you for reading – see you on the election list and in the FSR office A12.344!

**Name:** Tim Endmann  
**E-Mail:** tim.endmann@s2024.tu-chemnitz.de  
**Matrix (TUCmessages):** @etim:tu-chemnitz.de  
**Course:** Master Computer Science  
**Term:** 3rd term

Hello, my name is Tim, and this year I am running for my second term as an FSR member. Last year, I was already able to plan several events for you, and I also support as an admin to keep our website up to date and to ensure that our members can make good use of the FSR workspaces. I hope you will allow me to continue this in the coming year, and I look forward to working well together with all of you. See you soon, Tim

**Name:** Luna Pfretzschner  
**E-Mail:** luna-elaine-sharin.pfretzschner@s2025.tu-chemnitz.de  
**Matrix (TUCmessages):** @pflu:tu-chemnitz.de  
**Course:** Bachelor Computer Science  
**Term:** 1st term

Hi, Luna here — your jack of all trades, ace of none, and hopefully soon a universally deployable member of the FSR:IF.

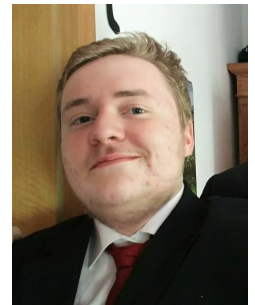

Alongside numerous design- and creation-focused hobbies, I bring not only creativity but also strong organizational skills to the table. Skills, that I apply every day in my own business, where I run events and tournaments. I'm always open-minded and socially approachable. And if that's not convincing enough, I can also point to several years of experience as a class representative, during which I've successfully helped resolve conflicts between students and teachers.

My goals for the FSR:IF are: to get involved wherever help is needed most; to build structures that last and support future members; to have an open ear for anyone who needs it; and to represent you — the students of the Faculty of Computer Science.

If I've convinced you, then please remember to set your cross by my name ;) )

**Name:** Wieland Breitfeld  
**E-Mail:** wieland.breitfeld@s2016.tu-chemnitz.de  
**Matrix (TUCmessages):** @brew:tu-chemnitz.de  
**Course:** Bachelor Computer Science and Communication Studies  
**Term:** 13th term

Hey everyone, I'm Wieland, and I've been with the student council for... um... [counts on the fingers of both hands]... several years. Unfortunately, there aren't many glorious things I'm organizing at the FSR that I can tell you about at the moment. But behind the scenes, the work continues as usual. Thanks to my many years of collaboration with various initiatives and departments at the university, I have a lot of experience that I can use to support the FSR and fight for your rights behind the scenes! To ensure that you have a strong partner who can educate, mediate, and, if necessary, punch up instead of down, I am participating in the student council using ♥ and 🦊.

**Name:** Jonathan Ihrig  
**E-Mail:** jonathan.ihrig@s2024.tu-chemnitz.de  
**Matrix (TUCmessages):** @ihrig:tu-chemnitz.de  
**Course:** Bachelor Computer Science  
**Term:** 3rd term

Hi, I am Jonathan and I am running for the FSR again this year. In the past year, I was able to gain experience and would like to continue my work as treasurer in the next term. I would also like to participate in the organization of events. I look forward to be part of the FSR:IF in the upcoming term!

**Name:** Jonas Kröber  
**E-Mail:** jkroeb@hrz.tu-chemnitz.de  
**Course:** Master Computer Science  
**Term:** 1st term

Greetings! My name is Jonas and I just moved to Chemnitz this semester. Before that, I did my bachelor's degree in Mittweida, so I'm already familiar with a bit of the university landscape outside of the StraNa<sup>a</sup>. What I didn't know until recently was a student council that does and organizes as much as your local FSR:IF. That really surprised me. That's why I would now like to take the opportunity to help ensure that we not only study *next* to each other, but also *with* each other.

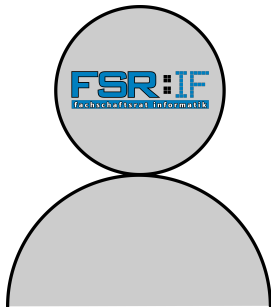

When I'm not sitting in a lecture with my laptop bag, you can often find me at the StraNa in one of the PC pools or at the Reichenhainer Str. where I regularly visit the university gym. Outside of TUC, I also appear increasingly often at the cultural pub *Kaffeesatz*, where I enjoy running and playing TTRPGs<sup>b</sup>.

I would be very happy to work for your well-being unpaid during the next term of office. :]

<sup>a</sup>Well, the place is only 30 minutes away by public transport...

<sup>b</sup>For the nerds: Mainly OSR, such as *Cairn 2e*, but also other rule-light/role-playing-heavy systems.

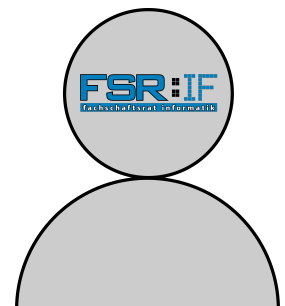

**Name:** Jayson Anthony Hartmann  
**E-Mail:** jayson.hartmann@informatik.tu-chemnitz.de  
**Matrix (TUCmessages):** @hjay:tu-chemnitz.de  
**Course:** Bachelor Computer Science  
**Term:** 3rd term

Hellow, I am Jay and I am currently in my 3rd B\_In semesters. I would like to continue my term, this time in a more pro-active way, since I firstly had to get used to everything. In general, I enjoy organizing events, helping with administrative tasks and helping students with questions regarding their studies

**Name:** Violet Promeuschel  
**E-Mail:** prov@hrz.tu-chemnitz.de  
**Matrix (TUCmessages):** @prov:tu-chemnitz.de  
**Course:** Bachelor Applied Computer Science  
**Term:** 3rd term

Transdisciplinary scientist. I understand the student council as the most effective way to solve students' problems with the university structure or individual professorships. Secondly however, it is also a knowledge and network hub over student generations. In case of election, I'd tackle both areas, but mostly the latter: Making sure knowledge carried by individuals isn't lost by codifying it as well as serving as an entry point if students have any questions or need some advice. As a stretch goal, I'd love to improve the publicity of the FSR:IF by creating dedicated design material, ideally convincing more entities to help out with organizing awesome events. Feel free to write me if you have any questions, even beyond the election! :3

**Name:** Leonie Rößler  
**E-Mail:** leonie.roessler@s2023.tu-chemnitz.de  
**Matrix (TUCmessages):** @leoro:tu-chemnitz.de  
**Course:** Bachelor Automotive Computer Science  
**Term:** 5th term

Heyy, I'm Leonie, I've been at TU Chemnitz since 2023 and I'm in my second term in the FSR. Since we know that coffee is one of the most important things when you're studying, I've taken on the organisation of the faculty breakfast together with Elias, which I'm really enjoying.

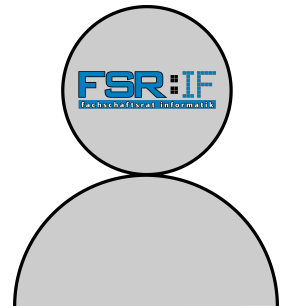

I am also responsible for the content on our Instagram account (@fsr\_if), where you can find important news and information about our events.

Of course, I am also happy to help you at any time with any problems that you may face in the course of your everyday student life.

I would be very grateful for your vote so that I can continue to be there for the students, organise events and learn new things :)

**Name:** Elias Brucker  
**E-Mail:** elias.brucker@s2023.tu-chemnitz.de  
**Course:** Bachelor Computer Science  
**Term:** 5th term

Hey, I'm Elias, I've been part of the FSR:IF for 2 years now and would like to run for a third term. I've already helped with many events, co-organized our Faculty Breakfast with Leonie, and I want to continue enabling many more events in the coming semesters to keep making student life a little bit better. For this, I would of course be happy if you would support me with your vote in the upcoming student council election.

**Name:** Diana Häntsch  
**E-Mail:** diana.haentsch@s2017.tu-chemnitz.de  
**Matrix (TUCmessages):** @dihae:tu-chemnitz.de  
**Course:** Master Applied Computer Science  
**Term:** 3rd term

My name is Diana. I have been part of the Computer Science Student Council since this current term and would be very happy to continue for another one. I particularly enjoy organizing and partaking in events that bring together students from different fields of study and creating opportunities to get to know one another. Additionally, I try to represent the interests of all students, making sure to take our international students into account, as well.

## Committees

### Student representatives (FSR)

The student representatives are the student representation on faculty level. They are responsible for cultural events, for the promotion of political education and of course above all to help with your studies. Furthermore they represent the students' interests towards the faculty and the university and are also point of contact for student problems. They advise students who are not familiar with their study regulations, intervene when injustice occurs somewhere and point out possibilities for improvement in the course of studies.

### Student Council (StuRa)

The FSR:IF elects up to 4 students to the student council ("StuRa"). This is the representation the student body of the entire university. They are responsible for various cultural activities such as readings and concerts.

Furthermore student projects, such as the game night, and university sports get financially supported. The student clubs PEB, FPM and the film club "mittendrin" – as well as the Chemnitz student network – are under their financial sovereignty. With the VMS and the railroad, they pursue regular negotiations for the semester ticket. Also they made it possible to get the upgrade to the Deutschlandticket. If it is necessary, they speak with the university management or start – often in cooperation with the other Saxon student councils – higher education policy actions.

**We are searching new engaged people for the StuRa! Please contact us if interested!**

### Faculty Council

The Faculty Council is the highest body of the faculty. It advises and decides about vocations, courses of study, orders and all other things that faculty. Up to two members of it are students.

### Study commissions

Most study commissions – there is a study commission for each study program – are currently made up of three students and three teachers occupied. In recent years they have worked on the study and examination regulations for the new Bachelor and Master programs. Otherwise she is responsible for the continuous evaluation of the courses and for the annual teaching report. It is also intended to make proposals for reforming the Making study regulations when problems are identified somewhere.

**We are searching new engaged people for the study commissions! Please contact us if interested!**

### Examination board

The examination board is responsible for the recognition of academic achievements and many other formalities concerning examinations. It supervises the compliance with the examination regulations. One student representative is part of this board.

### Doctoral committee

The doctoral committee is responsible for the doctoral theses at the faculty. Here is one student member with advisory vote.

## Acting committee members of the Faculty of Computer Science

### FSR

- Wieland Breitfeld (since 04/2018)
- Markus Henkelmann (since 04/2020)
- Pauline Fischer (since 04/2023)
- Mathis Jeromin (since 04/2024)
- Leonie Rößler (since 04/2024)
- Elias Brucker (since 04/2024)
- Max Günther (since 04/2024)
- Norbert Ploner (since 04/2024)
- Tom Engelhardt (since 04/2025)
- Tim Endmann (since 04/2025)
- Jonathan Ihrig (since 04/2025)
- Diana Häntsch (since 04/2025)
- Jayson Hartmann (since 04/2025)

### StuRa

- Norbert Ploner (since 04/2025)

### Faculty Council

- *currently no member*

### Study Commissions

- Wieland Breitfeld (since 04/2019)
- Susan Strebe (since 04/2023)
- Norbert Ploner (since 04/2023)
- Jayson Hartmann (since 04/2025)
- Tim Endmann (since 04/2025)
- Estelle Wünsche (since 04/2025)
- Yannic Varias (since 04/2025)
- Darshan Dhanani (since 04/2025)
- Shweta Kadam (since 04/2025)
- Misbah Kanwal (since 04/2025)
- Nils Trampel (since 04/2025)
- Miriam Rettelbach (since 04/2025)
- Coralie Michel (since 04/2025)
- Jonathan Engisch (since 04/2025)
- Johannes Hofele (since 04/2025)

### Examination Board

- Jonas Henschel (since 04/2023)

### Doctoral Committee

- Diana Häntsch (since 04/2025)

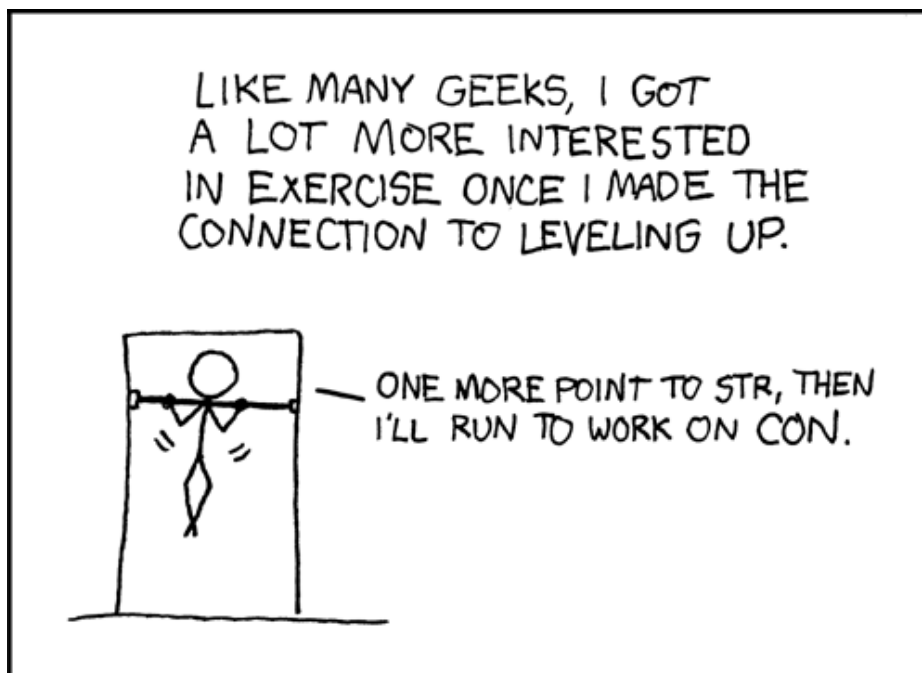

### Awarding Commission for the 'Deutschland-stipendium'

- Julia Sophie Blank (since 04/2024)

### Equal Opportunities Officer of the faculty

- Ashlyn Higgins (since 04/2025)
