Chances of Tax Digitalisation in Germany and Tunisia Summer School

"Bab Diwan, Sfax" by upyerno is licensed under CC BY 2.0.

The Summer School will compare the legal and factual implementation of electronic invoicing and blockchain technology in VAT against the backdrop of divergent economic starting points and social developments. One focus is on the contribution of digital technologies in tax area to improving fairness as a key driver of tax morale, which will be examined from an intercultural perspective.

June 18 to 22, 2024

University of Sfax - Tunisia

Students from Chemnitz University of Technology can have their participation credited for various modules. More information can be found on the chair's website.
