

*International Symposium on*

# ***Interstellar Reactions: from Gas Phase to Solids***

**June 05. – 09. 2005**

**Schloss Pillnitz bei Dresden**

## **Main topics**

Gas phase: spectroscopy and reactions

Observations, Disk Chemistry, Astrobiology

Condensation (hydrocarbons, PAH's, cluster, nanoparticles)

Surface interactions (ad- and desorption, H-atoms)

## *Invited speakers*

Biham, Ofer

Brechignac, Philippe

Charnley, Steve

Ehrenfreund, Pascale

Gail, Hans-Peter

Gerasimov, M.V.

Herbst, Eric
