## You can count on us!

For more than 100 years, youth hostels have embodied values that make life richer. Hostels are for all those who go through life open-mindedly, who want to experience togetherness and who actively approach others, who are courageous, even adventurous at times. Because young people don't need a corset if they've got a backbone of their own. The only time they twist and bend is for sports, or with laughter. They are people who live a life worth living, worth envying, and they make more of it.

## The location is excellent

Situated right in the heart of the city, you may explore Chemnitz by a walk. The building itself, a historical substation, reminds of that time. As a testimonial of the city's industrial architecture it still has the former crane trolley and also an "imported" part of a fly wheel. While looking on these exhibits, get inspired on your own by the atmosphere of that époque.
