Semiconductor Talent Incubation Program

A Joint Initiative of the Free State of
Saxony, TUD | Dresden University of
Technology, and TSMC

What we offer

The Semiconductor Talent Incubation Program features semiconductor courses in addition to a practical training in Taiwan at TSMC, a global leader in the semiconductor sector.

You will attend a four-month study program with different semiconductor modules at one of our Taiwanese partner universities, followed by a practical training at TSMC. Grants include a monthly subsidy and travel allowance.

Our program will provide you with valuable insights into cutting-edge research and production in the semiconductor industry.

It is also a unique opportunity for you to develop outstanding skills for your professional career.

Further information

Details on how to apply, eligibility criteria and deadlines can be found on our website or by scanning the QR Code:

➤ leo.tu-dresden.de/en/stipt

Your profile

You are enrolled at TUD | Dresden University of Technology or any university in Saxony in an MA program from the 1st semester onwards or in a BA or diploma program from the 2nd semester.

Your English proficiency should be at the B2-level (CEFR).

This program is open to students who pursue a degree in STEM subjects. Eligible fields of study include:

- Electrical Engineering
- Microelectronics
- Nanoelectronics
- Materials Science
- Mechatronics
- Mechanical Engineering
- Equipment Engineering
- Automation Technology / Automation Engineering
- Robotics
- Sensor Technology
- Physics
- Chemistry

Contact

For pre-departure questions about the program including application procedure, required qualifications, housing and finances, please contact our colleagues at

LEONARDO-SACHSEN

📍 Nürnberger Str. 31A, 1st floor
01187 Dresden
