Dear international students

Once a year, students at Chemnitz University elect their student representatives. This booklet will give you all the necessary details about the candidates, election procedure and the students' representative council.

You probably have already met us during the orientation week, at some other event organised by us or simply came by our office to ask questions regarding your studies. However, our main task as the students' representative council of computer science students is to communicate with professors and other university staff on your behalf.

The students' representative council consists of 15 members which are elected every year. This year, there are 7 candidates nominated for the next term, which will start in April 2022 and holds for the following 12 month. The election for that legislative term will take place **13.-15.th December**. You should have received a polling notice ("**Wahlbenachrichtigung**") via e-mail.

The polling stations are located in the following rooms:

- 13.12.21 (Mo)- room 1/367A, Straße der Nationen 62 9.00am - 6.00pm
- 14.12.21 (Tu)- room 2/W040, Reichenhainer Str. 70 9.00am - 6.00pm
- 15.12.21 (We)- room 2/W040, Reichenhainer Str. 70 9.00am - 6.00pm

Please bring your **student ID card**. You have three votes which can be accumulated on one candidate or distributed among multiple candidates.

If you have any questions about the candidates, don't hesitate to ask them. If you have any questions concerning the computer science students' representatives council, ask your representatives or send them an email: fsrif@tu-chemnitz.de.

If you have any questions concerning the electoral procedure, ask the electoral committee by sending an email to: stura-wahlen@tu-chemnitz.de.

What is the purpose of the students' representatives council?

The main task of the student representatives is to support the computer science students' interests at the department and at the whole university. If you have ideas on how to improve your course of study or you have had problems with your examinations you can ask your student representatives for help.

Additionally, they organise cultural events, parties and are responsible for political education and assisting students with their studies. The office of the computer science students' representatives ("Fachschaftsrat Informatik") can be found at room 1/344.

What we did so far

As you may have noticed, we were not in the last year and have organized and carried out the most diverse things. At the same time we have done our best to serve your interests fairly. represent and enforce. Thus, for example, in addition to the committee activities several informal rounds of talks with professors and staff, as well as the evaluation of various courses.

Student events during the term of office 2021/22:

- Orientationweek 2021

What we want to do next

- After what Corona allows

The candidates

Name: Richard Schöbel
E-Mail: richard.schoebel@s2017.tu-chemnitz.de
Studiengang: Bachelor Angewandte Informatik
Fachsemester: 9. FS

Hello I am Richard. With my more then 4 years at the university I got much knowledge about higher education policy. Since the day I was in the FSR I tried to organize many events like our game nights or the orientation week. I would like to continue that in the next year. Also it is very important for me, to get rid of professors, that are trying to work around the study regulations and try to make studying difficulter for you then it should be. So if you have problems regarding some lectures or professors don't hesitate and contact my and I would try my best to help you. So long story short: If you want some cool events or need help with profs, I am your man and would like to help you. So please leave a vote for me.

Name: Melina Schwarz

E-Mail: melina.schwarz@s2016.tu-chemnitz.de

Studiengang: Master Informatik für Geistes- und Sozialwissenschaftler

Fachsemester: 3. FS

Hello, my name is Melina, I'm studying IGS and with my previous Bachelor in Sociology I am on this university since 5 years. I participated in the orientational week being a mentor and helping out a little with organisational stuff. I really enjoyed bringing students together and see them connect with each other. So I want to continue with that during my work in this FSR. I hope to be able to organize more events to help students meet each other, even though the events are likely to be online because of corona. Furthermore I would like to share my knowledge with you about the university and studying and trying to help you out with your problems facing studying in Chemnitz. This would be my first year in this FSR but I'm highly motivated to engage more in this faculty and trying to stand up for your interests. So I would really like to get the opportunity to help shaping this new FSR!

Name: Hendrik Stepina

E-Mail: hendrik.stepina@s2013.tu-chemnitz.de

Studiengang: Bachelor Angewandte Informatik

Fachsemester: 9. FS

Name: Wieland Breitfeld

E-Mail: wieland.breitfeld@s2016.tu-chemnitz.de

Studiengang: Bachelor Informatik- und Kommunikationswissenschaften

Fachsemester: 7. FS

Hey everyone,

I'm Wieland, and I've been around for... um... [counting on the fingers of his hand]... a few years in the FSR. Right now, unfortunately, there aren't that many glorious things I'm organizing in the FSR to tell you about. But behind the scenes, the work goes on as usual. We read through every new senate resolution so that we can help you with any questions you may have about it. And of course, behind the scenes we continue to fight for your rights! I am involved in the student council so that you have a strong partner in case of problems with the university or lecturers, who can advise, mediate and if necessary also step up.

Name: Maren Gröne

E-Mail: groene.maren@s2016.tu-chemnitz.de

Studiengang: Master Neurorobotik

Fachsemester: 3. FS

Hello, although this would be my first year in student council, I am definitely not less motivated! The already existing processes might be unfamiliar to me yet, but a fresh eye will surely be a benefit. I am simply excited to make the arduous task of studying just a little less arduous for us all and I am hoping to bring my mediating skills to the table during our meetings. Apart from that, I will keep an open mind and am happy to take on tasks where necessary!

Name: Markus Henkelmann
E-Mail: markus.henkelmann@s2017.tu-chemnitz.de
Studiengang: Bachelor Informatik
Fachsemester: 7. FS

As in the current term, if I am re-elected in the coming term, I will probably be found more in the background, but very committed there. I would also like to continue to take care of the finances of the FSR:IF, as well as general tasks that keep the FSR:IF running. Since the first-year students in particular have once again not had an easy start to their studies, their concerns are especially important to me. Answering questions (regardless of the semester) about studying is therefore still very close to my heart.

Name: Daniel Richter
E-Mail: daniel.richter@s2002.tu-chemnitz.de
Studiengang: Promotion Informatik
Fachsemester: 16. FS

For the sake of simplicity, my election advertising text can be found in the German edition of the election booklet.

Committees

Student Council (FSR)

The student council is the student representation on faculty level. It is responsible for cultural events, for the promotion of political Education and of course above all to help with your studies. Furthermore he represents the student interests towards the faculty and the university and is also contact person for student problems. He advises students who are not familiar with their study regulations, he intervenes when injustice occurs somewhere and he points out possibilities for improvement in the course of studies.

Student Council (StuRa)

The FSR:IF elects 4 students to the student council. This is the representation the student body of the entire university. He is responsible for various cultural activities such as readings and concerts.

Furthermore student projects, such as the game night, and university sports financially supported. The student clubs PEB, FPM, Club der Kulturen and the film club in the middle of it – as well as the Chemnitz student network – under its financial sovereignty. With the VMS and the railroad, he leads regular negotiations for the semester ticket. If it is necessary, he speaks with the university management or starts – often in cooperation with the others Saxon student councils – higher education policy actions. **We are searching new engaged people for the StuRa! Please contact us!**

Faculty Council

The Faculty Council is the highest body of the faculty. It advises and decides about vocations, courses of study, orders and all other things that faculty. Two students are members.

Study commissions

Most study commissions - there is a study commission for each study program - are currently made up of three students and three teachers occupied. In recent years they have worked on the study and examination regulations for the new Bachelor and Master programs. Otherwise she is responsible for the

continuous evaluation of the courses and for the annual teaching report. It is also intended to make proposals for reforming the Making study regulations when problems are identified somewhere. **We are searching new engaged people for the study commissions! Please contact us!**

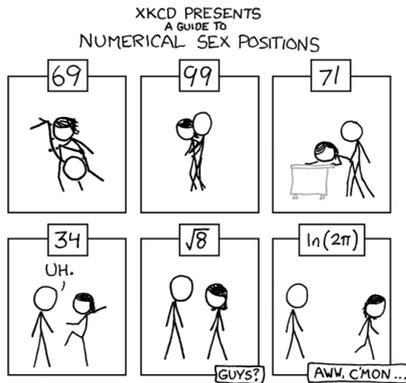

We are looking for committed people for the study commissions! Write to us!

Examination board

The examination board is responsible for the recognition of academic achievements and many other formalities concerning examinations. He supervises the Compliance with the examination regulations. In it sits a student representative.

Doctoral committee

The doctoral committee is responsible for the doctoral theses at the Faculty. Here is a student member with advisory vote.
