

## **Software Engineer Internship with an e-Mobility Start-up Based in Amsterdam**

eDRV is a technology company that enables smart business applications for Electric Vehicle fleets. We are growing our engineering and data science team in Amsterdam to drive the growth of our Electric Vehicle Business Intelligence product. This is an opportunity for a technology driven, ambitious, hardworking individual to work on a product that will have significant real-world impact in the transition from combustion engine fleets to clean electric vehicles.

We are based in the Rockstart Technology Accelerator Amsterdam-- one of Europe's most prominent accelerator programs. You will have access to Rockstart's startup focused events, a vibrant fun work environment within a great startup community, based in lively Amsterdam.

**Duration:** 3-6 months

**Location:** Amsterdam, Netherlands

**Commitment:** Full Time

**Compensation:** € 500/month

**Start Date:** ASAP. We are reviewing applications on a rolling basis and will consider a start date as early as October.

### **Responsibilities**

- Develop our EV business intelligence product (server side and/or front end)
- Commit to developing features on a sprint-to-sprint basis
- Planning work through Jira, reporting progress consistently
- Application Architecture, Design, Coding, Testing & Maintenance

### **Requirements**

- Enrolled in a relevant IT subject area with a focus on software development
- MEAN / MERN Stack
- API design and development
- Database expertise: MongoDB
- In depth knowledge of NodeJS or similar
- Hands on experience with JavaScript Development on both client and server-side
- Experience implementing applications using Angular or React and JS-based build tools like Grunt, Gulp, and Bower
- Experience creating front end applications using HTML5, CSS, Angular etc
- Continuous integration (Jenkins/Hudson) and version control (SVN, Git).

### **Bonus Skills**

- MySQL knowledge
- Knowledge of Git Flow, Agile methodology
- Docker knowledge
- AWS / Google Cloud / Heroku

### **Personal Attributes**

- Ability to be flexible and adapt to an ever-changing startup environment.
- Organized and comfortable multi-tasking
- Continually looking to learn and develop engineering skills
- Sense of humor (seriously!)

**To apply please send your resume and cover letter to [join-us@edrv.io](mailto:join-us@edrv.io).**

Please note we are unable to consider **Non-EU nationals** for this role unless you are currently enrolled in a Dutch University.

We are an equal opportunity employer and do not discriminate in hiring or employment based on race, color, religion, national origin, gender, marital status, sexual orientation, age, or disability. We are committed to diversity and inclusion.
