## Enter the World of German Index Engineering

Solactive AG is a FinTech company operating globally and growing at a fast pace, headquartered in Frankfurt. In our subsidiary Solactive Technologies GmbH in Dresden we develop innovative data mining applications, focusing on obtaining and processing of financial markets data.

## Software Developer PYTHON (m/f/d) | Dresden

Are you an innovative team player who is willing to challenge the status quo, drive innovation and apply agile best practices (e.g. pair programming)? Then you will very likely fit in our team!

### Your Tasks

- You will develop and refactoring our new data-mining application(s)
- Define and realize innovative application architecture
- implement microservices and testing
- be responsible for CD/CI process with support of Dev/SysOps-colleagues

### Your Profile

experiences in application development: Python and/or JAVA OOP Programming • DB like PostgreSQL • microservices • git • Innovative mindset and hands-on approach • Highly structured and motivated • well command of English • Ideally academic degree in computer science, IT security or a related field

### Our Offer

Be part of the Solactive family, a motivated team with an international setting • Get to know the dynamics of an established, successful FinTech company • Experience a modern start-up culture with a flat hierarchy and an (real) agile team • Seize the opportunity to develop personally and take over responsibility from day one • Pleasant working environment in Dresden Neustadt with flexible working hours and more

### Your Application

Your contact person is **Karsten Jänsch**. Don't miss your chance and send your application to [karsten.jaensch@opox.org](mailto:karsten.jaensch@opox.org) or call **0179 75 62 850** We are looking forward to hearing from you!
