Steps Towards Studying at TU Chemnitz

As a refugee interested in studying, you can choose between a degree program and an exchange stay.

Taking up a degree program

The application must be done via uni-assist.

Prospective students from Ukraine who just have finished the 11th grade must attend a Studienkolleg (preparatory college) beforehand. The preparatory college prepares students for studies at a German university. TU Chemnitz works together with the Studienkolleg Sachsen in Leipzig.

Exchange stay

An exchange stay is a temporary bridging measure until the resumption of the regular studies. If you are interested, please contact the International Office for further information.
