For job seekers:

Dear friends! I am glad to welcome You!

L. N. Gumilyov Eurasian National University is a close-knit community of thousands. The University has become an attraction for talented and motivated youth. Our highly educated graduates are in demand both at home and abroad.

ENU has become a leading institution of the educational system of Kazakhstan in a short-term period. The University promotes competitiveness and considerable progress in the international educational market. We are also actively developing collaboration with the world's leading universities.

The mission of the university is the generation of new knowledge and innovations, the development of human capital with in-demand skills. Our projects are aimed at enhancing the scientific and educational potential of the university. Thus, the university significantly contributes to the development of intellectual and economic potential of our country.

ENU is a workplace for the best lecturers of Kazakhstan and foreign countries.

We are Eurasians – those who get and give knowledge, and today there are over twenty thousand of us. You can also become a part of our team.

Welcome to our #ENUteam

Yerlan Sydykov
Rector

TOP-5 ENU ADVANTAGES

- 1 LOCATION**

Astana is a flourishing and culturally rich city with a rapidly developing infrastructure. The young capital is an excellent place to continue the academic path and start a career. ENU is located on the right bank of Astana, in a picturesque campus along the embankment of the Akbulak channel.
- 2 INFRASTRUCTURE**

ENU is a wonderful and safe place with modern learning opportunities. The university infrastructure consists of 7 academic buildings, 8 student houses, 2 sports complexes, a modern library, a sport and recreation base, etc.
- 3 SCIENCE**

ENU has leading scientific schools in the field of biology and biotechnology, nuclear physics, mathematics and information technology, chemistry and earth sciences, engineering, social sciences and humanities. There is a business incubator for the development of entrepreneurship among students, where hundreds of projects have been accelerated. The ENU Business Incubator regularly conducts trainings for students and young scientists on launching startup projects and entrepreneurship development.
- 4 ACADEMIC ACHIEVEMENTS**

Spacious classrooms, a teaching staff devoted entirely to work and focused on the students' success and a huge number of opportunities contribute to the comprehensive career growth of our students. ENU also has well-developed academic mobility and double-degree education programs, on the basis of which students can go to study in more than 50 countries of the world.
- 5 SOCIAL ENVIRONMENT**

The University creates opportunities for the all-round development of students. Our university has more than 80 student clubs for the personal growth of young people. Our students actively participate both in the University activities and the social events of Kazakhstan.

NATIONAL AND INTERNATIONAL RANKINGS

EDUCATIONAL ACTIVITIES

Our university's quality of education meets the highest standards, as evidenced by the successful participation of ENU in international and national rankings, international accreditation of programs.

Educational activities are carried out by highly qualified specialists, among whom are laureates of state prizes in the field of science and education, well-known scientists, academicians, doctors and candidates of sciences, professors and associate professors, PhD doctors and lecturers with extensive experience in teaching and scientific activities.

38 educational programs out of the total number are innovative and unique that have no analogues. They are based on the Atlas of new professions and competencies of the Republic of Kazakhstan, derived from the current requests of large employers in Kazakhstan.

Currently, the share of employed graduates is 87%.

The inflow of applicants has increased more than fivefold since the establishment of the university – from four thousand in 1996 to twenty thousand in 2022.

Students of L.N. Gumilyov Eurasian National University acquire profound knowledge, broad mindset, rich culture, and also advance mobility, creativity, and leadership attributes. It allows them to find an application for their knowledge.

Today, more than 78 thousand first-class specialists have graduated from the alma mater.

SCIENTIFIC ACTIVITY

L.N. Gumilyov ENU fundamental and applied scientific research is implemented at scientific schools and 31 research divisions (institutes, centers, laboratories). There is a "Laboratory of Engineering profile" in the field of nuclear physics and a "Testing Laboratory of building materials and mixtures "ENU-Lab". These laboratories conduct a full range of studies in nuclear physics, materials science, and building materials research thanks to advanced equipments.

L.N. Gumilyov ENU is a publisher of 18 scientific journals, 3 of which are included in the international database Web of Science Core Collection (Emerging Sources Citation Index): "Eurasian Journal of Mathematical and Computer Applications", "Eurasian Mathematical Journal", "Eurasian Journal of Physics and Functional Materials". The university has been publishing the journal "Turkish Studies Journal" (TSJ) since 2019.

The journals have individual websites on the OJS platform. All articles are assigned a DOI – Digital Object Identifier, which facilitates the exchange of information between scientists.
