## ► Courses

### **Survival German**

This course prepares you for everyday life in Germany. Learn greetings, how to exchange pleasantries, how to read a menu and to order food or how to discuss sizes and prices with a salesperson. You are also going to receive useful insights into the German mindset and customs. The daily lessons include pronunciation, coaching and project work.

### **Continuing German**

In this course you can brush up and expand your existing knowledge of German. While you can increase your confidence in interacting with Germans, you can also expand your reading and writing skills and develop an appreciation of language structure, not as an end in itself, but as a communicative tool. Separate lessons in phonetics and projects focusing on German culture make this course an all-in-one package for those who wish to continue past survival level or regain confidence in the language.

### **German for academic and other professional purposes**

If you already possess a fairly independent command of the language, this course teaches you how to interact at an academic or other professional level. Apart from expansion of speaking and listening skills, the focus is on comprehension of texts for special purposes and more complex linguistic devices commonly employed for terminology, conceptual clarification and argument.

You will have the opportunity to explore the rich history of Chemnitz and to participate in excursions to Dresden and the beautiful Ore Mountains with their charming towns. Enjoy a pub crawl with our student assistants or introduce others to your culture at an intercultural evening...

Our student assistants will look after you during all of the activities and help you with everything.

## ► Your benefit

Enhance your German skills at the level you require. Profit from immersion in a German-speaking environment. Enjoy German history and culture in Chemnitz and its beautiful surroundings.
