

invites for September 28th-30th, 2011 to the

24th Chemnitz FEM Symposium

Scientific topics:

The symposium is devoted to all aspects of finite elements and wavelet methods in partial differential equations. The topics include (but are not limited to)

adaptive methods, parallel implementation, high order methods.

This year we particularly encourage talks on

- *hp-FEM and Applications*
- *Variational Inequalities*
- *Saddle Point Problems*

Invited speakers:

Alexander Düster (Hamburg-Harburg)
Ernst P. Stephan (Hannover)
Walter Zulehner (Linz)

Location:

Hotel Lindenhof in Holzgau (Rechenberg-Bienenmühle)

in the middle of the Ore Mountains (Erzgebirge), between Chemnitz and Dresden, south-east of Freiberg.

Important dates:

July 4th, 2011 : Submission of abstracts via WWW
August 15th, 2011 : Registration for participants via WWW

Scientific committee:

Th. Apel (München), **S. Beuchler** (Bonn), **G. Haase** (Graz),
H. Harbrecht (Stuttgart), **R. Herzog** (Chemnitz),
M. Jung (Dresden), **U. Langer** (Linz), **A. Meyer** (Chemnitz),
A. Rösch (Duisburg), **O. Steinbach** (Graz).
