

TECHNISCHE UNIVERSITÄT CHEMNITZ

FAKULTÄT FÜR
MATHEMATIK

25

invites for September 24th-26th, 2012 to the
25th Chemnitz FEM Symposium

Chemnitz
FEM
Symposium

**Scientific
topics:**

The symposium is devoted to all aspects of finite elements and wavelet methods in partial differential equations. The topics include (but are not limited to)

adaptive methods, parallel implementation, high order methods.

This year we particularly encourage talks on

- *Plates and Shells*
- *Domain Decomposition*

**Invited
speakers:**

Manfred Bischoff (Stuttgart)
Martin J. Gander (Geneva)

Location:

**Chemnitz University
of Technology**

**Campus
Reichenhainer Straße**

**Important
dates:**

June 18th, 2012 : Submission of abstracts via WWW

August 10th, 2012 : Registration for participants via WWW

**Scientific
committee:**

Th. Apel (München), **S. Beuchler** (Bonn), **G. Haase** (Graz),
H. Harbrecht (Basel), **R. Herzog** (Chemnitz),
M. Jung (Dresden), **U. Langer** (Linz), **A. Meyer** (Chemnitz),
A. Rösch (Duisburg), **O. Steinbach** (Graz).
